TITLE VII—COMPETITION IN CONTRACTING

Short Title

SUBTITLE A—AMENDMENTS TO THE FEDERAL PROPERTY AND ADMINISTRATIVE SERVICES ACT OF 1949

Competitive Procedures
Sec. 2711. (a)(1) Section 303 of the Federal Property and Administrative Services Act of 1949 (41 U.S.C. 253) is amended to read as follows:

“Competition Requirements

“Sec. 303. (a)(1) Except as provided in subsections (b) and (c) and except in the case of procurement procedures otherwise expressly authorized by statute, an executive agency—

“(A) shall comply with the full and open competition requirements set out in this title and in the modifications to regulations promulgated pursuant to section 2572 of the Competition in Contracting Act of 1984; and

“(B) shall, in entering into a contract for property or services, the competitive procedure or combination of competitive procedures that is best suited under the circumstances of the procurement action.

“(2) The head of an executive agency, when using competitive procedures—

“(A) shall solicit sealed bids if—

“(i) time permits the solicitation, submission, and evaluation of sealed bids;

“(ii) the award will be made on the basis of price and other price-related factors;

“(iii) it is not necessary to conduct discussions with the responding sources about their bids, and

“(iv) there is a reasonable expectation of receiving more than one sealed bid; and

“(B) shall request competitive proposals if sealed bids are not appropriate under clause (A).

“(b)(1) An executive agency may provide for the procurement of property or services covered by this section using competitive procedures but excluding a particular source in order to establish or maintain any alternative source or sources of supply for that property or service if the head of the executive agency determines that to do so—

“(A) would increase or maintain competition and would likely result in reduced overall costs for such procurement, or for any anticipated procurement, of such property or services;

“(B) would be in the interest of national defense in having a facility (or a producer, manufacturer, or other supplier) available for furnishing the property or service in case of a national emergency or industrial mobilization, or

“(C) would be in the interest of national defense in establishing or maintaining an essential engineering, research, or development capability to be provided by an educational or other nonprofit institution or a federally funded research and development center.

“(2) In fulfilling the statutory requirements relating to small business concerns and socially and economically disadvantaged small business concerns, an executive agency shall use competitive procedures but may restrict a solicitation to allow only such business concerns to compete.

“(c) An executive agency may use procedures other than competitive procedures only when—

“(1) the property or services needed by the executive agency are available from only one responsible source and no other type of property or services will satisfy the needs of the executive agency;

“(2) the executive agency’s need for the property or services is of such an unusual and compelling urgency that the Government would be seriously injured unless the agency is permitted to limit the number of sources from which it solicits bids or proposals;

“(3) it is necessary to award the contract to a particular source or sources in order to (A) maintain a facility, producer, manufacturer, or other supplier available for furnishing property or services in case of a national emergency or to achieve industrial mobilization, or (B) establish or maintain an essential engineering, research, or development capability to be provided by an educational or other nonprofit institution or a federally funded research and development center;

“(4) the terms of an international agreement or treaty between the United States Government and a foreign government or international organization, or the written directions of a foreign government reimbursing the executive agency for the cost of the procurement of the property or services for such government, have the effect of requiring the use of procedures other than competitive procedures;

“(5) a statute expressly authorizes or requires that the procurement be made through another executive agency or from a specified source, or the agency’s need is for a brand-name commercial item for authorized resale;

“(6) the unrestricted disclosure of the executive agency’s needs would compromise the national security unless the agency is permitted to limit the number of sources from which it solicits bids or proposals;

“(7) the head of the executive agency—

“(A) determines that it is necessary in the public interest to use procedures other than competitive procedures in the particular procurement concerned, and

“(B) notifies each House of the Congress in writing of such determination not less than 30 days before the award of the contract.

“(d) For the purposes of applying subsection (c)(1)—
(1) in the case of a contract for property or services to be awarded on the basis of acceptance of an unsolicited research proposal, the property or services shall be considered to be available from only one source if the source has submitted an unsolicited research proposal that demonstrates a unique and innovative concept the substance of which is not otherwise available to the United States and does not resemble the substance of a pending competitive procurement and—

"(2) in the case of follow-on contracts for the continued development or production of major systems or highly specialized equipment when it is likely that award to a source other than the original source would result in (A) substantial duplication of cost to the Government which is not expected to be recovered through competition, or (B) unacceptable delays in fulfilling the executive agency's needs, such property may be deemed to be available only from the original source and may be procured through procedures other than competitive procedures.

"(3) An executive agency using procedures other than competitive procedures to procure property or services by reason of the application of subsection (c)(2) or (c)(6) shall request offers from as many potential sources as is practicable under the circumstances.

"(4) A determination that the anticipated cost is fair and reasonable;

"(5) A description of the market survey conducted or a statement of the reason a market survey was not conducted;

"(6) a listing of the responsible sources, if any, that expressed an interest in the procurement;

"(7) a statement of the actions, if any, the agency may take to remove or overcome a barrier to competition before a subsequent procurement for such needs.

"(8) The justification required by paragraph (1)(A) and any related account, document, or other record shall be made available for inspection by the public consistent with the provisions of section 552 of title 5, United States Code.

"(9) In no case may an executive agency—

"(A) enter into a contract for property or services using procedures other than competitive procedures on the basis of the lack of advance planning or concerns related to the amount of funds available to the agency for procurement functions; or

"(B) procure property or services from another executive agency unless such other executive agency complies fully with the requirements of this title in its procurement of such property or services.

The restriction set out in clause (B) is in addition to, and not in lieu of, any other restriction provided by law

"(10) In order to promote efficiency and economy in contracting and to avoid unnecessary burdens for agencies and contractors, regulations shall provide for special simplified procedures for small purchases of property and services.

"(11) A small purchase is a purchase or contract which does not exceed $25,000

"(12) A proposed purchase or contract for an amount exceeding $25,000 may not be divided into several purchases or contracts for lesser amounts in order to use small purchase procedures.

"(13) The head of an agency, in using small purchase procedures, shall promote competition under such procedures to the maximum extent practicable.

(2) Title III of such Act is further amended by inserting after section 303 the following new sections:

"(2) Each solicitation under this section shall include specifications which—

"(A) consistent with the provisions of this title, permit full and open competition;

"(B) include restrictive provisions or conditions only to the extent necessary to satisfy the needs of the agency as authorized by law;

"(3) For the purposes of paragraph (1), the type of specification included in a solicitation shall depend on the nature of the needs of the executive agency and the market available
to satisfy such needs. Subject to such needs, specifications may be stated in terms of—

(1) a function so that a variety of products or services may qualify;

(2) performance, including specifications of the range of acceptable characteristics or of the minimum acceptable standards; or

The executive agency shall evaluate the bids without discussions with the bidders and shall except as provided in subsection (b), award a contract with reasonable promptness to the responsible bidder whose bid conforms to the solicitation and is most advantageous to the United States, considering price and the factors included in the solicitation under section 303A(b)(1).

"(3) In the case of award of a contract under paragraph (1)(B), the executive agency shall award the contract based on the proposals as received (and as clarified, if necessary, in discussions conducted for the purpose of minor clarification).

(4) The executive agency shall, except as otherwise provided in subsection (b), award a contract with reasonable promptness to the responsible sources whose proposal is most advantageous to the United States, considering price and the factors included in the solicitation under section 303A(b)(1).

"(d)(1) The executive agency shall, except as otherwise provided in subsection (b), award a contract with reasonable promptness to the responsible bidder whose bid conforms to the solicitation and is most advantageous to the United States, considering price and the factors included in the solicitation under section 303A(b)(1).

"(e) If the head of an executive agency considers that any bid or proposal evidences a violation of the antitrust laws, he shall refer the bid or proposal to the Attorney General for appropriate action.

(B) orders and contracts under such procedures result in the lowest overall cost alternative to meet the needs of the Government.

"(d) The term 'full and open competition' and 'responsible source' have the same meanings provided such terms in section 4 of the Office of Federal Procurement Policy Act (41 U.S.C. 403).
