## Calculating "Total Dollar Amount of Obligations" and "Number of Contract Actions" in FPDS

This handout outlines the process for running a standard report to determine "total dollar amount of obligations" and "number of contract actions" for the given fiscal year.

1. Begin by clicking 'Standard Reports' on the FPDS-NG home page.
2. Click on the 'What' button at the top left corner of the screen, then select 'Federal Contract Actions and Dollars'.

What types of products and services the government has been buying?

To calculate Supplies as a percentage of Total Dollar Amount of Obligations, add the numbers in the cells under "\% Total Dollars" that correspond with one of the nine "Products" categories. The cells to add are light blue in the example below.

In this example, the \% Total Dollars Amount obligated to Supplies is 39\%.
5. To calculate Services (including Research and Development) as a percentage of Total Dollar Amount of Obligations, subtract the number found in step (5.) from 100\%.

Using the number from the above example: $100 \%-39 \%=61 \%$, so the \% Total Dollars Amount obligated to Services is $61 \%$.
